UX, Frontend & Deployment for Remote Startups

david@davidortiz.me +1 858 776-2508

Minified Resume

🇺🇸 Born, NYC

📅 14 years design & development

🌐 9 years working remotely

🛠️ Figma / Framer / AutoGPT / VSCode / React Workflows

📅 Diverse team experience with early and late-stage

👊 Highly adaptive to Murphy's Law

14-year veteran of #startuplife ~ Trusted with Design/Code for millions of users.

I am a highly adaptive individual who is always eager to take on design challenges that push the limits of my abilities. With a breadth of experience gained from both full-time and consulting roles, I have the skills and expertise to tackle any problems that come our way. My goal is to work closely with my team to create the best possible end-user experience, and I am determined to do whatever it takes to achieve that goal.

Career Experience

Founder/Director

Design By David

Dec 2014 - Present (8+ years)

 Las Vegas, NV

At Design By David, our mission is to create digital experiences that promote social good. We specialize in providing comprehensive product strategy, frontend development, UI design, and information architecture services for clients worldwide, with a focus on iOS and Web platforms. Our team has extensive experience working with clients in various regions, including the United States, European Union, and Southeast Asia.

Design Lead

AutoFill Technologies B.V.

Mar 2020 - Present (3+ years)

 Amsterdam, NL (Remote)

AutoFill is a deep tech meets hard tech company revolutionizing object inspections with an initial focus on the automotive and rail industries.

Art Director

Grwo B.V.

Jan 2018 - Mar 2020 (2 years, 3 months)

 Amsterdam, NL (Remote)

Grwo is an online engine which builds native iOS & Android apps according to your brand's specifications. The guided process is quick and user-friendly.

UI Developer / Designer

Flexpat B.V.

Dec 2016 - Jun 2018 (1 year, 7 months)

 Rotterdam, NL (Remote)

Flexpat built apps for the future of remote work. Our ecosystem is built to support growing Digital Nomads and enable location independence for everyone.

Visual Designer

TuneWiki, Inc

Mar 2012 - Jul 2013 (1 year, 5 months)

 Santa Monica, CA

TuneWiki was a popular social music app with millions of users that let people see the lyrics to songs they were streaming on Spotify and other platforms.

Web Design / Support

TuneUp Media

Jul 2010 - Oct 2011 (1 year, 4 months)

 San Francisco, CA

TuneUp was a plugin for iTunes with over 9 million users and a large, VC funded team with several internal departments that I was able to practice in.
